

— Proposed tree planting extent
— Proposed first stage

The screenshot displays the 'Property Map Enquiry' software interface. The main window shows an aerial photograph of a residential and agricultural area. A red line highlights the 'Proposed tree planting extent', and a yellow line highlights the 'Proposed first stage'. The software interface includes a search panel on the left with fields for 'Assess No', 'Lot no', 'House no', 'Street', 'Suburb', 'Surname/Company/Initials', 'VEN Number', 'Pensioner', 'Strata', 'Reserve', 'Vesting', 'Zoning', 'Land use', 'Cet. of title', 'Location', 'Plan/Diagram', 'Free Form 1', and 'Old Assess.'. The search results show 'assess_no: A4111 180 18339 SOUTH WESTERN HWY' and 'ratepayer: PV TERRACE'. The software has a toolbar at the top with various navigation and tool icons. The Windows taskbar at the bottom shows the time as 8:49 AM on 30/05/2017. A notification box in the bottom right corner states: 'This document was sent to the printer', 'Document: UVO_Framework3', 'Printer: REC-CL-XEROX on dbk-ps1', 'Time: 8:49:42 AM 30/05/2017', and 'Total pages: 1'.

***Corymbia maculata* (syn. *Eucalyptus maculata*) (Spotted Gum)**

- Origin:** South-east Queensland and coastal New South Wales.
- Habit:** Large evergreen tree, normally with a long, single straight trunk supporting a dense, broad domed canopy. Fast growing it can attain dimensions of 18-20m high x 12-15m wide at maturity.
- Description:** Thick lanceolate, slightly glossy leaves are mid-green above and lighter green below. White flowers borne in May through September. Smooth-barked with spotted or mottled various shades of grey.
- Tolerances:** Adaptable to a wide range of climatic conditions and soil types, though prefers well drained sites. High drought tolerance, and high pollution tolerance. Susceptible to sap sucking and foliar feeding insects.
- Notes:** Requires formative pruning yet makes a handsome large tree. Suitable for avenues or on large sites planted in groups.
- Root space:** Based on mature size tree would require approximately 177m² area or 106m³ root volume (Crown projection method).
- Availability:** Common, tube, container or advanced.

Spotted Gum used in avenue & smooth trunk.

Illawarra Flame Tree

Origin

Subtropical forests from Innisfail, Qld south to Illawarra in NSW.

Description

The Illawarra Flame Tree is a well-recognised flowering Australian tree, extensively cultivated not only in Australia but overseas.

Typically forming a pyramidal shape the tree can reach 40m in native conditions, however locally the tree generally only reaches a third of this size.

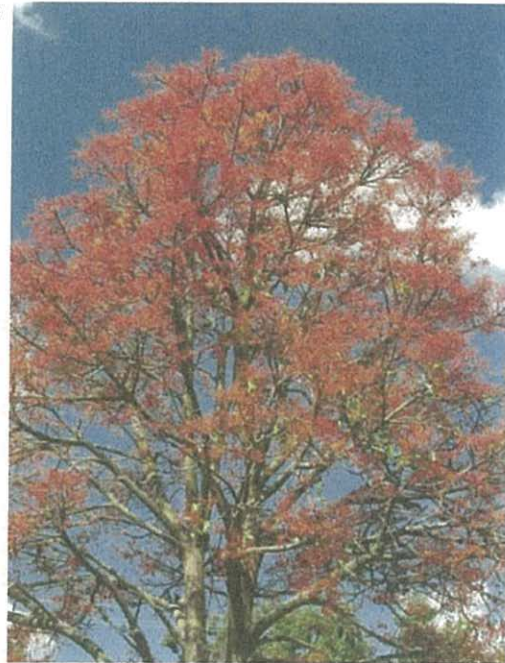

Trees retain the monsoonal characteristic of shedding leaves during October. In good climatic seasons waxy scarlet red flowers smother bare branches during November to December – providing contrast to Jacarandas also flowering at the same time. Dark seed follicles up to 10 cm long develop after flowering and contain bright yellow bristly seeds.

New leaf growth commences shortly after the floral display producing large, glossy palmate, leaves often variable on one tree.

The Flame trees sculptural form and seasonal variation complement a wide variety of locations and architecture.

Aspects of species

- Spectacular floral display during summer.
- Generally has a clear straight trunk.
- Can be used as a feature tree due to its pyramidal shape.
- Can sometimes be difficult to establish in Perth conditions.
- Leaf scorch can occur where trees are exposed to drying summer winds or reflected heat from paving.
- Does not grow well in alkaline or poor soils.
- Seasonal leaf-fall late spring.

improve air quality • reduce urban heat • increase property values • leafy green neighbourhoods • wildlife corridors • shaded footpaths • reduce energy costs

DONNYBROOK TOWNSCAPE COMMITTEE - ACTION ITEMS AS AT 8 JUNE 2017

Action	Assigned To	Comments/ Status
Collins Street Local Development Plan	MWS	The Shire has applied for blackspot funding in 2017/18 to install additional paths, improve pedestrian crossing, and improve street lighting.
Arboretum Signage	PP	Draft sign provided to committee members for feedback prior to finalising the design. Waiting on designs from the Tourism Association and Chamber of Commerce.
Review of Moveable Signage on Donnybrook Main Street	PP	Amendment No.4 has been granted final approval by Minister for Planning subject to modifications. Once gazetted, local business owners along the main street will be notified of the new requirements.
Outdoor Ping Pong Table	PP	Ongoing project.
Reserve (Corner Victory Lane and South Western Highway)	PP	Informal discussion has started with adjoining land owners.
Public Toilet near Railway Station	PP	To investigate any Heritage Issues.
Community Garden	PP	A draft lease document has been prepared and is with the community garden group to consider as part of application to Department of Lands. Staff will be meeting with committee regarding design options in June.
Request to Relocate the Transportable Skate Park to Kirup	PP	Agenda item presented to the February 2017 Townscape Committee Meeting. Applicant advised of the decision.
Model Train Set	PP	Advice has been provided regarding grant applications
