GLOVER, Lisa

I made Donnybrook my home in 1990 and with my husband Dave, have been very lucky to raise two wonderful children here.

I have always been an active volunteer across a variety of community and sporting groups in Donnybrook and the South West. This has shown me the many benefits of grass roots community projects.

I am a practising, qualified social worker with skills applicable to enabling and encouraging community growth and development from within Council.

The triple bottom line concept looks at community and environment as well as financial performance to ensure growth is ethical, sustainable and prudent. I believe to achieve sustainable growth, simply looking at the bottom line is not enough.

I hope to be part of an open and approachable Council and would be honoured to represent you.
