Executive Summary	<ul style="list-style-type: none"> Adoption of the 2019/20 Annual Budget. A proposed general rate increase of 1.95%.

Statutory Budget Changes

There has been two changes to the Budget Schedules.

- 1) An amount of \$900,000 has been allocated to the Preston Village Retirement Village, schedule 8. A funding amount of \$900,000 has also been recorded. Hence, the nett effect to the budget is zero.
- 2) Depreciation has changed by \$799.00 to match the depreciation schedule.

One requested change is for an expense of \$47,922 to be allocated to Bush Fire Brigades building modifications. DFES will match the \$47,922 expenditure with grant funding. Hence, the nett effect to the budget is zero.

STRATEGIC ALIGNMENT

The following outcomes from the Corporate Business Plan relate to this proposal:

Outcome	Strategy	Action
4.1 – A strategically focussed, open and accountable local government	4.1.2 – Continue to enhance communication and transparency	4.1.2.1 Ongoing meaningful communication and engagement with residents, ratepayers and stakeholders
4.2 – A respected, professional and trusted organisation	4.2.1 – Effective and efficient operations and service provisions	4.2.1.4 – Demonstrate sound financial planning and management, including revenue/expenditure review diversification strategies and long term financial planning.

BACKGROUND

On 22 July 2019 Council adopted the 2019/20 Draft Annual Budget. The 2019/20 Annual Budget has now been produced in accordance with provisions of the Local Government Act 1995 (with additional supplementary budget papers). The 2019/20 Annual Budget is provided under separate cover.

DETAILS

A proposed general rate increase of 1.95% is necessary to meet the operating and capital expenditure in the 2019/20 draft budget. The recommended resolutions are required to adopt the 2019/20 Annual Budget and associated fees and charges that are levied with annual rates.

At the Ordinary Meeting on 24 April 2019 Council endorsed changes to reserve accounts for consideration in the Annual Budget.

The *Local Government Act section 6.11* requires that where a local government wishes to set aside money for use for a purpose in a future financial year, it is to establish and maintain a reserve account for each such purpose.

Council maintains a number of cash reserves for a variety of purposes:

- a) to provide funds for future liabilities.
- b) to provide funds for future asset acquisitions / replacement.
- c) to hold unspent funds for specific projects.
- d) to reduce the reliance on borrowing by accumulating funds for specific projects.

Where relevant, reserves are (and will be) supported by comprehensive plans that detail future funding requirements and the necessary annual allocations to reserves.

All cash backed reserve accounts are supported by money held in financial institutions.

Cash backed reserves will play an increasingly important cash flow role within the Integrated Planning and Reporting Framework (IPRF). This has necessitated the need to review the current structure of the reserve accounts. The revised reserve account structure is intended to create greater accountability and transparency for funds set aside in reserve for specific purposes.

The changes have been included in the 2019/20 Annual Budget document.

CONSULTATION

A period of public comment on the draft 2019/20 Budget was undertaken between the 25 July and 16 August. One submission was received and is provided in Attachment 8.1.1 (1).

In responding to the submission, it is acknowledged the Local Planning Scheme is required to be reviewed in 2019/20 as suggested in the submission, however this will be undertaken in-house by Planning staff and therefore will not require an additional Budget allocation as proposed.

FINANCIAL IMPLICATIONS

This report will adopt the 2019/20 Annual Budget as required by the Local Government Act 1995.

POLICY COMPLIANCE

Not Applicable

STATUTORY COMPLIANCE

Section 6.2 of the Local Government Act requires that:

“Not later than 31st August in each financial year, or such extended time as the Minister allows, each local government is to prepare and adopt, in the form and manner prescribed, a budget for its municipal fund for the financial year ending on the next following 30 June.”

Note: The form and manner prescribed is detailed in Part 3 of the Local Government (Financial Management) Regulations 1996.

CONCLUSION

The recommended resolutions are required to adopt the 2019/20 Annual Budget and associated fees and charges that are levied with rates.

BACKGROUND

The independent audit report of the 2017/18 Annual Financial Report (Attachment 8.1.1a) identified the following:

Report on Other Legal and Regulatory Requirements

In accordance with the Local Government (Audit) Regulations 1996 we report that:

- (i) In our opinion, the following matter indicate a significant adverse trend in the financial position of the Shire of Donnybrook-Balingup:*
 - a. Operating surplus ratio as reported in Note 19 of the financial report is below the Department of Local Government, Sport and Cultural Industries (DLGSCI) standard of zero for the last three years (2016: -0.57, 2017: -0.39 and 2018: -0.49).*

S7.12A of the Local Government Act 1995 (the Act) requires the following relating to significant matters raised in the audit report (Attachment 8.1.1b).

- (4) A local government must —*
 - (a) prepare a report addressing any matters identified as significant by the auditor in the audit report, and stating what action the local government has taken or intends to take with respect to each of those matters; and*
 - (b) give a copy of that report to the Minister within 3 months after the audit report is received by the local government.*
- (5) Within 14 days after a local government gives a report to the Minister under subsection (4)(b), the CEO must publish a copy of the report on the local government's official website.*

DETAILS

Financial ratios are designed to provide users of annual financial reports with a clearer interpretation of the performance and financial results of a local government and a comparison of trends over a number of years.

Ratios may be disclosed as a percentage or a factor of one.

Financial ratios are included in the notes to the Annual Financial Report. These ratios provide users with key indicators of the financial performance of a local government.

Under regulation 50 of the Local Government (Financial Management) Regulations 1996, the Annual Financial Report is to include the following:

- a) Current Ratio
- b) Asset Consumption Ratio
- c) Asset Renewal funding Ratio
- d) Asset Sustainability Ratio
- e) Debt Service Cover Ratio
- f) Operating Surplus Ratio
- g) Own Source Revenue Coverage Ratio

The Shire’s ratio performance since 2013/14 is tabled below

	Standard	2017/18	2016/17	2015/16	2014/15	2013/14	5 Year Average

The audit report for 2017/18 details auditor’s concerns with the trend of the Shire’s ‘Operating Surplus Ratio’.

The Shire Operating Surplus Ratio for the past 5 years

	Standard	2017/18	2016/17	2015/16	2014/15	2013/14	5 Year Average
Operating Surplus Ratio	0.01	✗ (0.49)	✗ (0.38)	✗ (0.57)	✗ (0.23)	✗ (0.38)	✗ (0.41)

The Operating Surplus Ratio is explained in Local Government Operational Guidelines Number 18 – June 2013 (Financial Ratios) p6.

4.4 Financial Performance Ratio

A key indicator of a local government’s financial performance is measured by the ‘Operating Surplus Ratio’. If a local government consistently achieves a positive operating surplus ratio and has soundly based long term financial plans showing that it can continue to do so in future, having regard to asset management and the community’s service level needs, then it is considered financially sustainable.

A positive ratio indicates the percentage of total own source revenue available to help fund proposed capital expenditure, transfer to cash reserves or to reduce debt.

A negative ratio indicates the percentage increase in total own source revenue (principally rates) that would have been required to achieve a break-even operating result.

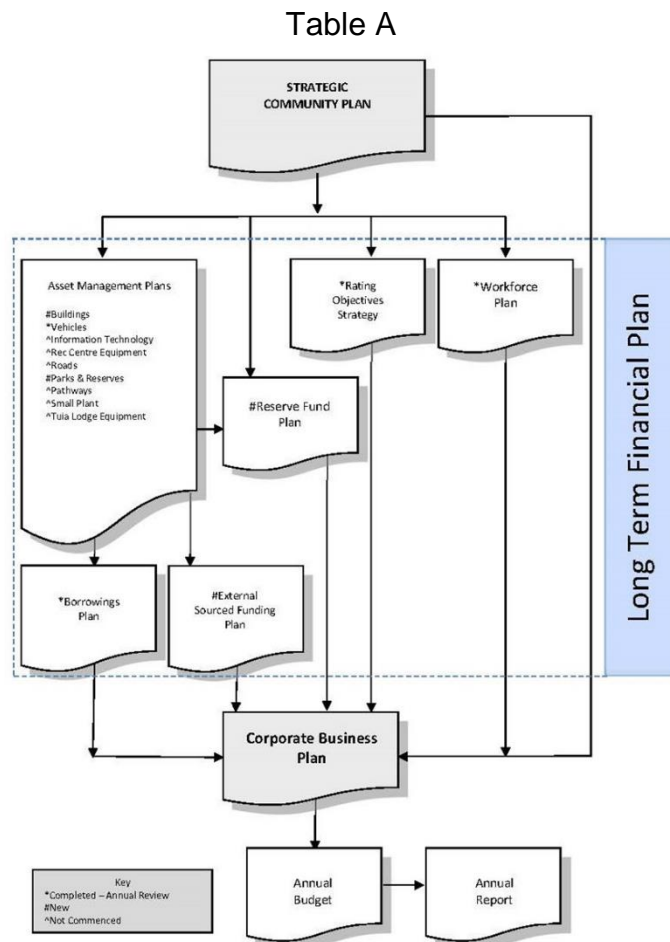

Operating Surplus Ratio	
Operating Surplus Ratio =	(Operating Revenue MINUS Operating Expense) Own Source Operating Revenue
Purpose:	This ratio is a measure of a local government’s ability to cover its operational costs and have revenues available for capital funding or other purposes.
Standards:	Basic Standard between 1% and 15% (0.01 and 0.15) Advanced Standard > 15% (>0.15).
Definitions:	

<i>'Operating Revenue'</i>	<i>Means the revenue that is operating revenue for the purposes of the AAS, excluding grants and contributions for the development or acquisition of assets.</i>
<i>'Operating Expense'</i>	<i>Means the expense that is operating expense for the purposes of the AAS.</i>
<i>'Own Source Operating Revenue'</i>	<i>Means revenue from rates and service charges, fees and user charges, reimbursements and recoveries *, interest income and profit on disposal of assets.</i>

Officer's briefed Elected Members in February 2018 relating to the Shire's financial ratios and performance against the Financial Health Indicator.

Officers identified a historical absence of robust long term asset management planning and a corresponding absence of sustainable 'own source' asset renewal funding within the budgetary framework. This was highlighted as an inhibitor towards improving sustainable financial health of the Shire.

In response to transitioning the organisation towards improved long term financial sustainability, an Integrated Financial Planning Framework was developed in 2018 (Table A)

Since introducing the Integrated Planning Framework in 2018 the following documents and long term financial plans have been developed and presented to Council.

	Introduced
Workforce Plan	2018
Borrowings Plan	2018
Rating Objectives Strategy	2018
Asset Management Plan – Vehicles	2018
Asset Management Plan – Buildings	2019
Asset Management Plan – Parks & Reserves	2019
Reserves Fund Plan	2019
External Sourced Funding Plan	2019

The following plans have been identified as required and are planned for future development

Asset Management Plan – Information Technology
Asset Management Plan – Recreation Centre Equipment
Asset Management Plan – Roads
Asset Management Plan – Pathways
Asset Management Plan – Small Plant
Asset Management Plan – Tuia Lodge Equipment

At the ordinary meeting of Council on 24 April 2019 officers reported the following when seeking Council to endorse the annual (2019/20) review of Integrated Planning and Financial Reporting Framework.

Officers are progressing the development of an Integrated Planning and Reporting Framework for the Shire (Table 1) that will improve the long term financial sustainability of the Shire of Donnybrook Balingup.

This corporate planning framework will provide greater integration of plans and become the driver for the Annual Budget.

A suite of financial planning systems are being developed and implemented that will;

- a) Accurately demonstrate the Shire’s capability to deliver services and manage its asset portfolio that can sustain our community into the future.*
- b) Accurately determine the real cost of managing the Shire’s asset portfolio.*
- c) Accurately determine the real cost of delivering services to the community.*
- d) Accurately determine the real contribution residents and users should make to the cost of services & facilities.*

One aspect of the financial planning framework is realigning the underlying foundation of the Annual Budget to respond to the aforementioned points in order to improve the long term financial sustainability for the Shire.

It is advised that Council has careful regard to longer-term considerations in making annual budget decisions. If they do not, they may find that the Shire is faced with future financial challenges. These long-term financial plans let Council see what its future financial obligations are. The plans help Council assess the need for early intervention to reduce future risks and associated revenue raising requirements of future generations.

If a Local Government runs ongoing under-lying operating deficits, it needs to recognise the longer-term implications. Not addressing this deficit is likely to mean that future Councils will struggle to be able to accommodate asset renewal needs and that service levels will decline over time.

STATUTORY COMPLIANCE

s7.12A of the Local Government Act 1995 (the act) requires the following relating to significant matters raised in the audit report

- (4) *A local government must —*
- (a) *prepare a report addressing any matters identified as significant by the auditor in the audit report, and stating what action the local government has taken or intends to take with respect to each of those matters; and*
 - (b) *give a copy of that report to the Minister within 3 months after the audit report is received by the local government.*
- (5) *Within 14 days after a local government gives a report to the Minister under subsection (4)(b), the CEO must publish a copy of the report on the local government's official website.*

Department of Local Government, Sport and Cultural Industries (the Department) has advised Local Governments of the requirement in Department Circular 05-2009

LOCAL GOVERNMENT AUDITING

Local governments are reminded of their audit reporting obligations under section 7.12A(4)(a) of the Local Government Act 1995.

To assist, the department has prepared a template for use by local governments.

While the template is not in a prescribed form it is suggested that it is used by local governments to standardise the report format and support a uniform process.

Reporting requirements

In November 2017 the proclamation of the Local Government Amendment (Auditing) Act 2017 introduced a number of reforms to auditing laws.

These were outlined in Circular 16-2017 and the accompanying Guide to Local Government Auditing.

This included the introduction of a new category of audits called Performance Audits.

Legislation also now requires local governments to examine an audit report it receives and implement appropriate action in respect to the significant matters raised.

Local governments must prepare a report addressing the significant matters identified in the audit report.

The report should then be considered by the local government's audit committee before being adopted by council.

This report is to be provided to the Minister within three months of receiving the audit report and within 14 days after the local government gives the report to the Minister, the CEO must publish a copy of the report on the local government's official website.

This requirement applies to both a local government's financial audit as well as any Performance Audits undertaken by the Auditor General.

To date the Auditor General has undertaken a number of Performance Audits of selected local governments that include Records Management, Local Government Procurement, Timely Payment of Suppliers and Controls Over Corporate Credit Cards.

Section 7.12A(4)(a) of the Local Government Act 1995 (the Act) refers to the preparation of a report by a local government.

The report is to address any matters identified as significant by the auditor in the audit report, the report is to also state what action the local government has or intends to take in respect to each of those matters.

The Department proposes to maintain the ongoing process of examining audit reports to ensure compliance and monitoring the actions that local governments take or intend to take in addressing any significant matters identified in the audit reports.

If you have any questions regarding this information, please contact the Department on (08) 6551 8700 or via email audits@dlqsc.wa.gov.au.

The Department has advised the reporting to be in the following format

CONCLUSION

Officers reiterate previous advice that the Shire's Integrated Financial Planning Framework will provide greater integration of plans and become the driver for the Annual Budget.

A suite of financial planning systems are being developed and implemented that will;

- a) Accurately demonstrate the Shire's capability to deliver services and manage its asset portfolio that can sustain our community into the future.
- b) Accurately determine the real cost of managing the Shire's asset portfolio.
- c) Accurately determine the real cost of delivering services to the community.
- d) Accurately determine the real contribution residents and users should make to the cost of services & facilities.

One aspect of the financial planning framework is realigning the underlying foundation of the Annual Budget to respond to the aforementioned points in order to improve the long term financial sustainability for the Shire.

It is advised that Council has careful regard to longer-term considerations in making annual budget decisions. If it does not, it may find that the Shire is faced with future financial challenges. These long-term financial plans let Council see what its future financial obligations are. The plans help Council assess the need for early intervention to reduce future risks and associated revenue raising requirements of future generations.

If a Local Government runs ongoing under-lying operating deficits, it needs to recognise the longer-term implications. Not addressing this deficit is likely to mean that future Councils will struggle to be able to accommodate asset renewal needs and that service levels will decline over time

All things being equal, an operating deficit / surplus will trend higher over time when increased sustainable 'own source' operating revenue sources are committed annually towards meeting the asset renewal requirements identified in the current and proposed, asset plans.

COMMITTEE RECOMMENDATION - 1

That the Audit Committee recommend the Council submit the following response in compliance of S7.12A of the Local Government Act 1995 relating to significant matter raised in the 2017/18 audit report

1.1 Purpose of Report

To respond the Department of Local Government, Sport and Cultural Industries in compliance of S7.12A of the Local Government Act 1995 relating to significant matter raised in the 2017/18 audit report.

1.2 Significant Matter Identified by OAG

Report on Other Legal and Regulatory Requirements

In accordance with the Local Government (Audit) Regulations 1996 we report that:

- (ii) In our opinion, the following matter indicate a significant adverse trend in the financial position of the Shire of Donnybrook-Balingup:*
 - a. Operating surplus ratio as reported in Note 19 of the financial report is below the Department of Local Government, Sport and Cultural Industries (DLGSCI) standard of zero for the last three years (2016: -0.57, 2017: -0.39 and 2018: -0.49).*

1.3 Implication

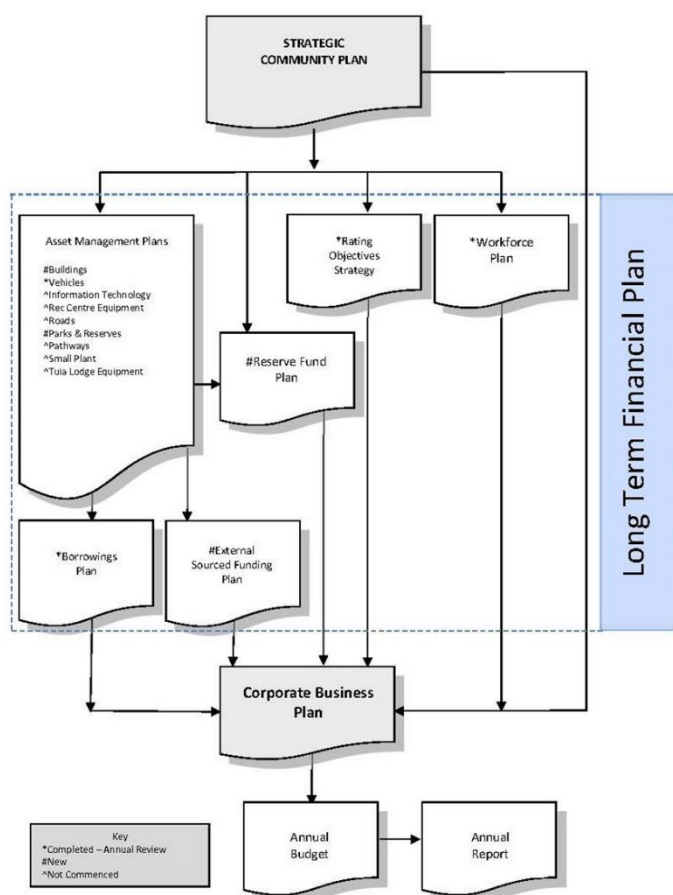

If a Local Government runs ongoing under-lying operating deficits, it needs to recognise the longer-term implications. Not addressing ongoing deficits is likely to mean that future Councils will struggle to be able to accommodate asset renewal needs and that service levels will decline over time. It is acknowledged that a trending reduction in the operating deficit is necessary for improved sustainable financial health of the Shire.

1.4 Management Comment

Historically, the Shire has had no robust integrated financial planning framework that incorporates sustainable 'own source' funded long term asset management plans. It is the opinion of CEO that this has resulted in a more adverse financial position of the Shire that would ordinary be the case under a fully developed Integrated Financial Planning Framework.

The Shire of Donnybrook Balingup is transitioning towards improved long term financial sustainability, an Integrated Financial Planning Framework was developed in 2018 (Table A).

Table A

1.5 Action Taken or Intended to be Taken

A suite of financial planning systems are being developed and implemented that will;

- a) Accurately demonstrate the Shire’s capability to deliver services and manage its asset portfolio that can sustain our community into the future.
- b) Accurately determine the real cost of managing the Shire’s asset portfolio.
- c) Accurately determine the real cost of delivering services to the community.
- d) Accurately determine the real contribution residents and users should make to the cost of services & facilities.

Since introducing the Integrated Financial Planning Framework in 2018 the following documents and long term financial plans have been developed and presented to Council.

	Introduced
Workforce Plan	2018
