

SHIRE OF DONNYBROOK BALINGUP

Town Planning Policy

9.9 Road Closure

1. Council will not support the closure of any gazetted public road which has any possibility whatsoever of being utilised. There is a general presumption against the closing of roads.
2. Council will however consider the closure of a gazetted road where it will have no impact upon legal practical access to any property and will result primarily in the rationalisation of land and roads within the Shire.
3. In the event that Council supports the closure of a road the proponent will be liable for all costs involved with the road closure.
